Life is but an empty dream
For the soul is dead & the
things are not what they seem

Life is real life is earnest
And the grave is not its goal
Dust thou art to dust returneth
Was not spoken of the soul.

Not enjoyment & not pleasure
Is our destined end or way
But to act that each tomorrow
Sees us further on our way.

Art is long & time is fleeting
And the heart though stout & brave
Still like muffled drums are beating
Funeral marches to the grave -
In the World's broad field of battle
In the Bivouac of life
Be not like dumb driven cattle
Be a hero in the strife.

Trust no future however pleasant
Let the dead past bury its dead
Act act for the living present
Hearts within & God overhead
